SUMMARY

Mechanical engineer with 3 years of design experience seeking transition to IT as a full-stack developer. Skilled in JavaScript, HTML, CSS, React, and database management. With an unwavering commitment to quality and a keen eye for detail, I'm excited to take on new challenges and contribute to the creation of next-generation software solutions.

SKILLS

React	Axios
Node.js	Html
Express	Css3
MongoDB	bootstrap
React Router	

EXPERIENCE

Design Engineer
SmartPools International Pvt ltd *Aug 2017 - Mar 2020*

- Researched and developed the existing product to ensure the ongoing market requirements and to reduce the cost of production.
- Provided the costing for every upcoming project of SmartPools.
- Provided the bill of materials (BOM) for the newly designed products of SmartPools.

PROJECTS

FreezeMyPose
Developer
Project Link: freezemypose.000webhostapp.com/

- Created a sleek and modern photography website featuring a biography section, gallery page, and contact form using HTML and pure CSS.
- Optimized for search engine visibility and designed to showcase the photographer's unique style and creative vision.

Covid 19 Tracker
Developer
Project Url : https://iniy96.github.io/30daysInReact-04-CovidTracker/

- The COVID-19 Tracker is a sleek and intuitive web app built using React JS. It fetches real-time COVID-19 data from the Rapid API and displays it in a user-friendly format.
- This project showcases my ability to create responsive and engaging web applications while utilizing external APIs to provide meaningful insights to users.

EDUCATION

Mechanical Engineer
University College of Engineering, Dindigul Campus *2013 - 2017*
